

ORDINANCE NO. 2022-1099

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF YORBA LINDA AMENDING CHAPTER 15.08 OF THE YORBA LINDA MUNICIPAL CODE AND ADOPTING BY REFERENCE THE CALIFORNIA FIRE CODE, 2022 EDITION, WHICH INCORPORATES AND AMENDS THE INTERNATIONAL FIRE CODE, 2021 EDITION, WITH CERTAIN APPENDICES AND AMENDMENTS, AND REPEALING ORDINANCE NO. 2019-1068

WHEREAS, California Government Code Section 50022.1 *et seq.* authorizes the City to adopt by reference the California Building Standards Code (California Code of Regulations, Title 24) adopting certain uniform codes, including the California Fire Code, 2022 Edition, (which incorporates and amends the International Fire Code, 2021 Edition), with certain appendices and amendments; and

WHEREAS, California Health and Safety Code Sections 17958 *et seq.* and 18941.5 authorize cities to adopt the California Building Standards Code with modifications determined to be reasonably necessary because of local climatic, geological or topographical conditions; and

WHEREAS, the City of Yorba Linda desires to adopt the California Fire Code, 2019 Edition, which is a part of the California Building Standards Code, as adopted by the State of California Building Standards Commission in Title 24 of the California Code of Regulations (the "Fire Code"), with certain appendices and amendments to assure the Fire Code is tailored to the particular safety needs of the City of Yorba Linda as required by its unique climatic, geological and topographical conditions; and

WHEREAS, the City Council held a public hearing on December 6, 2022 at which time all interested persons had the opportunity to appear and be heard on the matter of adopting the California Fire Code, 2022 Edition, as amended herein; and

WHEREAS, the City published notice of the aforementioned public hearing pursuant to California Government Code Section 6066 on November 24, 2022 and December 1, 2022; and

WHEREAS, any and all other legal prerequisites relating to the adoption of this Ordinance have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF YORBA LINDA DOES HEREBY ORDAIN AS FOLLOWS:

Section 1. Findings. To the extent that the following changes and modifications to the California Fire Code, 2022 Edition, are deemed more restrictive than the standards contained therein, thus requiring that findings be made pertaining to local conditions justifying such modifications, the City Council adopted Resolution No. 2022-5828 that

found and determined that the following changes and modifications are reasonably necessary due to local conditions.

Section 2. Chapter 15.08 of the Yorba Linda Municipal Code is amended in its entirety to read as follows:

“CHAPTER 15.08

FIRE CODE

Sections:

- 15.08.010 Fire Code Adopted.**
- 15.08.020 Enforcement and Inspection.**
- 15.08.030 Chapter 1, Division II-Administration - amendments.**
- 15.08.040 Chapter 2 Definitions - amendments.**
- 15.08.050 Chapter 3 General Requirements -- amendments.**
- 15.08.060 Chapter 4 Emergency Planning and Preparedness – amendments.**
- 15.08.070 Chapter 5 Fire Service Features – amendments.**
- 15.08.080 Chapter 9 Fire Protection Systems – amendments.**
- 15.08.090 Chapter 25 Fruit and Crop Ripening – deleted**
- 15.08.100 Chapter 26 Fumigation and Insecticidal Fogging – deleted**
- 15.08.110 Chapter 28 Lumber Yards and Agro-Industrial, Solid Biomass and Woodworking Facilities – amendments.**
- 15.08.120 Chapter 49 Requirements for Wildland-Urban Interface Fire Areas – amendments.**
- 15.08.130 Chapter 50 Hazardous Materials – General Provisions – amendments.**
- 15.08.140 Chapter 56 Explosives and Fireworks – amendments.**
- 15.08.150 Chapter 57 Flammable and Combustible Liquids – amendments**

- 15.08.160 Chapter 58 Flammable Gasses and Flammable Cryogenic Fluids – amendments
- 15.08.170 Chapter 80 Referenced Standards – amendments.
- 15.08.180 Appendix A Board of Appeals – deleted.
- 15.08.190 Appendix B Fire-Flow Requirements for Buildings – adopted.
- 15.08.200 Appendix BB Fire-Flow requirements for Buildings – adopted.
- 15.08.210 Appendix C Fire Hydrant Locations and Distribution – adopted.
- 15.08.220 Appendix CC Fire Hydrant Locations and Distribution – adopted.
- 15.08.230 Appendix D Fire Apparatus Access Roads – deleted.
- 15.08.240 Appendix E Hazard Categories – deleted.
- 15.08.250 Appendix F Hazard Ranking – deleted.
- 15.08.260 Appendix G Cryogenic Fluids – Weight and Volume Equivalents -- deleted.
- 15.08.270 Appendix H Hazardous Materials Management Plans (HMMP) and Hazardous Materials Inventory Statements (HMIS) Instructions– adopted.
- 15.08.280 Appendix I Fire Protection Systems – Noncompliant Conditions – deleted.
- 15.08.290 Appendix J Building Information Sign – deleted.
- 15.08.300 Appendix K Construction Requirements for Existing Ambulatory Care Facilities -- deleted.
- 15.08.310 Appendix L Requirements for Fire Fighter Air Replenishment Systems – deleted.
- 15.08.320 Appendix M High Rise Buildings – Retroactive Automatic Sprinkler Requirements – deleted.
- 18.08.330 Appendix N Indoor Trade Shows and Exhibitions – deleted.

15.08.340 Appendix O Temporary Haunted Houses, Ghost Walks and Similar Amusement Uses – deleted.

15.08.010 Fire Code Adopted.

There is hereby adopted by reference, as the Fire Code of the City, the 2022 California Fire Code, based on the International Fire Code, 2021 Edition, with errata and certain appendices, published by the International Code Council (ICC), and the whole thereof, for the purpose of prescribing regulations covering conditions hazardous to the life and property from fire or explosion, save and exempt such portions as are hereinafter added, deleted or amended. One copy of all the above is on file in the office of the City Clerk for public inspection and is adopted with the same force and effect as though set out herein in full. The California Fire Code, 2022 Edition, as adopted herein, is amended as set forth in Sections 15.08.020 through 15.08.360.

15.08.020 Enforcement and Inspection.

The California Fire Code and the International Fire Code with amendments shall be enforced by the Orange County Fire Authority, which shall be operated under the Fire Chief of the Orange County Fire Authority. The Fire Chief of the Orange County Fire Authority may detail such members of the fire authority as shall be necessary from time to time.

15.08.030 Chapter 1, Division II, Administration – amendments.

Chapter 1, Division II Administration. Adopt Chapter 1 in its entirety, with the exception of Section 109, and with the following amendments:

Section 112.4 Violation penalties is hereby amended to read as follows:

112.4 Violation penalties. Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or shall fail to comply with any issued orders or notices or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the fire code official, or of a permit or certificate used under provisions of this code, shall be subject to penalties assessed as prescribed in the OCFA Prevention Field_Services adopted fee schedule. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

Section 112.4.2 Infraction and misdemeanor is hereby added as follows:

112.4.2 Infraction and misdemeanor. Persons operating or maintaining any occupancy, premises or vehicle subject to this code that shall permit any fire or life safety hazard to exist on premises under their control shall be guilty of an infraction. Persons who fail to take immediate action to abate a fire or life safety hazard when

ordered or notified to do so by the chief or a duly authorized representative are guilty of a misdemeanor.

15.08.040 Chapter 2 Definitions – amendments.

Chapter 2 Definitions is adopted in its entirety with the following amendments:

Sections 202 General Definitions is hereby revised by adding “OCFA” and “Spark Arrester” as follows:

202 General Definitions

OCFA: Orange County Fire Authority, fire authority having jurisdiction.

SPARK ARRESTER. A listed device constructed of noncombustible material specifically for the purpose of meeting one of the following conditions:

1. Removing and retaining carbon and other flammable particles/debris from the exhaust flow of an internal combustion engine in accordance with California Vehicle Code Section 38366.
2. Fireplaces that burn solid fuel in accordance with California Building Code Chapter 28.

15.08.050 Chapter 3 General Requirements – amendments

Chapter 3 General Requirements. Adopt Chapter 3 in its entirety, with the exception of Sections 308.1.4, 311.5 through 311.5.5, 318, and 319, and with the following amendments:

Section 304.1.2 Vegetation is hereby amended to read as follows:

304.1.2 Vegetation. Weeds, grass, vines or other growth that is capable of being ignited and endangering property, shall be cut down and removed by the owner or occupant of the premises. Vegetation clearance requirement in urban-wildland interface areas shall be in accordance with Chapter 49. Type, amount, arrangement, and maintenance of vegetation in a fuel modification area, interior slope, or similarly hazardous area shall be in accordance with OCFA Guideline C-05 “Vegetation Management Guideline—Technical Design for New Construction, Fuel Modification Plans, and Maintenance Program.”

Section 305.6 Hazardous Conditions is hereby added as follows:

305.6 Hazardous conditions. Outdoor fires burning wood or other solid fuel are not allowed when any of the following conditions applies:

1. when predicted sustained winds exceed 8 MPH and relative humidity is less than 25%, or a red flag condition has been declared

2. when an official sign was caused to be posted by the fire code official, or a public announcement is made

No outdoor fires using any fuel type are permitted when predicted sustained winds exceed 20 MPH or when such fires present a hazard as determined by the fire code official.

Section 305.7 Disposal of rubbish is hereby added as follows:

305.7 Disposal of rubbish. Rubbish, trash or combustible waste material shall be burned only within an approved incinerator and in accordance with Section 307.2.1.

Section 307 OPEN BURNING, RECREATIONAL FIRES AND PORTABLE OUTDOOR FIREPLACES is hereby revised as follows:

SECTION 307 OPEN BURNING, RECREATIONAL FIRES, FIRE PITS, FIRE RINGS, AND PORTABLE OUTDOOR FIREPLACES

Sections 307.6 Outdoor Fireplaces, Fire Pits, Fire Rings, or similar devices used at Group R Occupancies is hereby added as follows:

307.6 Outdoor Fireplaces, Fire Pits, Fire Rings, or similar devices used at Group R Occupancies. Outdoor fireplaces, fire pits, fire rings, or similar exterior devices used at Group R occupancies shall comply with this section.

Exception: Barbeques, grills, and other portable devices intended solely for cooking.

Section 307.6.1 Gas-fueled devices is hereby added as follows:

307.6.1 Gas-fueled devices. Outdoor fireplaces, fire pits and similar devices fueled by natural gas or liquefied-petroleum gas are allowed when approved by the Building Department and the device is designed to only burn a gas flame and not wood or other solid fuel. At R-3 occupancies, combustible construction and vegetation shall not be located within (3) three feet of an atmospheric column that extends vertically from the perimeter of the device. At other R occupancies, the minimum distance shall be (10) ten feet. Where a permanent Building Department approved hood and vent is installed, combustible construction may encroach upon this column between the bottom of the hood and the vent opening. Where chimneys or vents are installed, they shall have a spark arrester as defined in Section 202.

Section 307.6.2 Devices using wood or fuels other than natural gas or liquefied-petroleum gas is hereby added as follows:

307.6.2 Devices using wood or fuels other than natural gas or liquefied-petroleum gas.

Permanent outdoor fireplaces burning wood or other solid fuel shall be constructed in accordance with the California Building Code with clearance from combustible construction and building openings as required therein. Fires in a fireplace shall be contained within a firebox with an attached chimney. The opening in the face of the firebox shall have an installed and maintained method of arresting sparks.

The burning of wood or other solid fuel in a device is not allowed within (25) feet of combustible structures unless within an approved permanent fireplace. Conditions which could cause a fire to spread within (25) feet of a structure or to vegetation shall be eliminated prior to ignition. Fires in devices burning wood or solid fuel shall be in accordance with Sections 305, 307, and 308.

Newly constructed outdoor wood fueled fireplaces, fire pits, fire rings, or similar exterior wood burning devices are prohibited per SCAQMD Rule 445.

Exceptions:

1. Existing permitted wood burning fireplaces, fire pits, fire rings or similar wood burning devices equipped with a device to arrest embers and sparks and located (3) feet from combustible construction at R-3 occupancies.
2. Portable fireplaces, and fire pits/rings equipped with a device to arrest sparks, shall be located at least (15) feet from combustible structures at R occupancies
3. Barbeques, grills and other portable devices intended solely for cooking.

Section 307.6.2.1 Where prohibited is hereby added as follows:

307.6.2.1 Where prohibited. The burning of wood and other solid fuels shall not be conducted within a fuel modification zone, Wildfire Risk Area (WRA), Wildland-Urban Interface Area (WUI), or in locations where conditions could cause the spread of fire to the WRA or WUI.

Exceptions:

1. Existing permitted permanent fireplaces, fire pits, fire rings, or similar wood burning devices that are not located in a fuel modification zone
2. Where determined by the Fire Code Official that the location or design of the device should reasonably prevent the start of a wildfire.

Section 308.1.6.3 Sky lanterns is hereby revised as follows:

308.1.6.3 Sky lanterns. A person shall not ignite, release, or cause to be released a sky lantern.

Section 324 Fuel Modification Requirements for New Construction is hereby added as follows:

324. Fuel Modification Requirements for New Construction. All new structures and facilities adjoining land containing hazardous combustible vegetation shall be approved and in accordance with the requirements of OCFA Guideline C-05 "Vegetation Management Guideline – Technical Design for New Construction Fuel Modification Plans and Maintenance Program."

Section 325 Clearance of brush or vegetation growth from roadways is hereby added as follows:

325 Clearance of brush or vegetation growth from roadways. The fire code official is authorized

The fire code official is authorized to cause areas within (10) feet on each side of portions of highways and private streets which are improved, designed or ordinarily used for vehicular traffic, to be cleared of flammable vegetation and other combustible growth. Measurement shall be from the flow-line or the end of the improved edge of the roadway surfaces.

Exception: Single specimens of trees, ornamental shrubbery or cultivated ground cover such as green grass, ivy, succulents or similar plants used as ground covers, provided that they do not form a means of readily transmitting fire.

Section 326 Unusual Circumstances is hereby added as follows:

326 Unusual Circumstances. The fire code official may suspend enforcement of the vegetation management requirements and require reasonable alternative measure(s) designed to advance the purpose of this code if determined that in any specific case that any of the following conditions exist:

1. Difficult terrain
2. Danger of erosion
3. Presence of plants included in any state and federal resources agencies, California Native Plant Society and county – approved list of wildlife, plants, rare, endangered and/or threatened species.
4. Stands or groves of trees or heritage trees.
5. Other unusual circumstances that make strict compliance with the clearance of vegetation provisions undesirable or impractical.

Section 327 Use of Equipment is hereby added as follows:

Section 327 Use of Equipment. Except as otherwise provided in this section, no person shall use, operate, or cause to be operated in, upon or adjoining any hazardous fire area any internal combustion engine which uses hydrocarbon fuels, unless the

engine is equipped with a spark arrester as defined in Section 202 maintained in effective working order, or the engine is constructed, equipped and maintained for the prevention of fire.

Exceptions:

1. Engines used to provide motor power for trucks, truck tractors, buses, and passenger vehicles, except motorcycles, are not subject to this section if the exhaust system is equipped with a muffler as defined in the Vehicle Code of the State of California.
2. Turbocharged engines are not subject to this section if all the exhausted gases pass through the rotating turbine wheel, there is no exhaust bypass to the atmosphere, and the turbocharger is in good mechanical condition.

Section 327.1 Use of Equipment and devices generating heat, sparks or open flames is hereby added as follows:

327.1 Use of Equipment and devices generating heat, sparks or open flames. During anytime of year within Wildfire Risk Area's, within or immediately adjacent to any forest or brush-covered land or non-irrigated grass-covered land, no person shall use or operate any welding equipment, cutting torches, tar pots, grinding devices, or other tools or equipment that may produce a spark, fire, or flame that could result in a wildfire without doing the following:

1. First clearing away all flammable material, including snags, from the area around such operation for a distance of (30) feet or other approved method to reduce fire spread into the wildlands. If (30) feet clearing cannot be achieved, then an alternate method shall be approved by the AHJ prior to work starting.
2. Maintain one serviceable round point shovel with an overall length of not less than forty-six (46) inches and one backpack pump water-type fire extinguisher fully equipped and ready for use at the immediate area during the operation.
3. Stop Work when winds are 8 MPH or greater during periods when relative humidity is less than 25%, or a red flag condition has been declared or public announcement is made, when an official sign was caused to be posted by the fire code official, or when such fires present a hazard as determined by the fire code official.
4. Keep a cell phone nearby and call 911 immediately in case of fire.

Section 327.2 Spark Arresters is hereby added as follows:

327.2 Spark arresters. Spark arresters shall comply with Section 202, and when affixed to the exhaust system of engines or vehicles subject to Section 327 shall not be placed or mounted in such a manner as to allow flames or heat from the exhaust system to ignite any flammable material.

15.08.060 Chapter 4 Emergency Planning and Preparedness – amendments.

Chapter 4 Emergency Planning and Preparedness. Adopt only those sections and subsections adopted by the SFM with the following amendment.

401 – 401.9
402
403.1
403.2
403.4 – 403.4.4
403.10.2.1.1
403.10.6
403.12 – 403.12.3
404.5 – 404.6.6
407

Section 407.5 is revised to read as follows:

407.5 Hazardous Materials Inventory Statement. Where required by the fire code official, each application for a permit shall include OCFA's Chemical Classification Guideline in accordance with Section 5001.5.2.

15.08.070 Chapter 5 Fire Service Features. – amendments.

Chapter 5 Fire Service Features is adopted in its entirety as amended by SFM with the following amendments:

SECTION 501.1 Scope is revised to read as follows:

501.1 Scope. Fire service features for buildings, structures and premises shall comply with this chapter and, where required by the fire code official, with OCFA Guideline B-01, "Fire Master Plan for Commercial & Residential Development."

Section 510.1 Emergency responder radio coverage in new buildings is revised to read as follows:

510.1 Emergency responder radio coverage in new buildings. All new buildings shall have approved radio coverage for emergency responders within the building based upon the existing coverage levels of the public safety communication systems of the jurisdiction at the exterior of the building. This section shall not require improvement of the existing public safety communication systems. The Emergency Responder Radio Coverage System shall comply with the requirements of the Orange County Sheriff's Department, Communications and Technology Division, and, where the functionality or performance requirements in the California Fire Code are more stringent, in this code.

Exceptions:

1. In buildings or structures where it is determined by the fire code official that the radio coverage system is not needed, including but not limited to the following:
 - a. Existing buildings or structures, unless required by the Building Official and OCFA for buildings and structures undergoing extensive remodel and/or expansion.
 - b. Elevators.
 - c. Structures that meet all of the following:
 - i. Three stories or less, and
 - ii. Do not have subterranean storage or parking, and
 - iii. Do not exceed 50,000 square feet on any single story.
 - d. Structures that meet all of the following:
 - i. Residential structures four stories or less, and
 - ii. Constructed of wood, and
 - iii. Do not have subterranean storage or parking, and
 - iv. Are not built integral to an above ground multi-story parking structure.

Should a structure that is three stories or less and 50,000 square feet or smaller on any single story include subterranean storage or parking, then this ordinance shall apply only to the subterranean areas.

2. In facilities where emergency responder radio coverage is required and such systems, components or equipment required could have a negative impact on the normal operations of the facility, the fire code official shall have the authority to accept an automatically activated emergency radio coverage system.

15.08.080 Chapter 9 Fire Protection and Life Safety Systems – amendments.

Adopt Chapter 9 Fire Protection and Life Safety Systems is adopted in its entirety with the following amendments:

Section 903.2 Where required is hereby amended to read as follows:

903.2 Where required. Approved automatic sprinkler systems in buildings and structures shall be provided when one of the following conditions exists:

1. **New buildings:** Notwithstanding any applicable provisions of Sections 903.2.1 through 903.2.20 an automatic fire-extinguishing system shall also be installed in all occupancies when the total building area exceeds 5,000 square feet as defined in Section 202, regardless of fire areas or allowable area, or is more than two stories in height.

Exception: Subject to approval by the Fire Code Official, open parking garages in accordance with Section 406.5 of the California Building Code that

are smaller than the area specified in Section 903.2.10 (3) or 903.2.10.1 of the California Fire Code.

2. **Existing Buildings:** Notwithstanding any applicable provisions of this code, an automatic sprinkler system shall be provided in an existing building when an addition occurs and one of the following conditions exists:
 - a. When an addition is 33% or more of the existing building area, and the resulting building area exceeds 5000 square feet
 - b. When an addition exceeds 2000 square feet, and the resulting building area exceeds 5000 square feet.
 - c. An additional story is added above the second floor regardless of fire areas or allowable area.

Exception: Additions to Group R-3 occupancies shall comply with Section 903.2.8 (2).

Section 903.2.8 Group R is hereby amended to read as follows:

903.2.8 Group R. An automatic sprinkler system installed in accordance with Section 903.3 shall be provided throughout all buildings with a Group R fire area as follows:

1. **New Buildings:** An automatic sprinkler system shall be installed throughout all new buildings.
2. **Existing Buildings:** An automatic sprinkler system shall be installed throughout when one of the following conditions exists:
 - a. When an addition occurs and the combined area of the existing building plus the area of the addition, including attached garage, exceeds 4,800 s.f.; or

Exception: An addition is less than 200 s.f.

- b. Any addition when the existing building is already provided with an automatic sprinkler system.
- c. When an existing Group R Occupancy is being substantially renovated, and where the scope of the renovation is such that the Building Code Official determines that the complexity of installing a sprinkler system would be similar as in a new building.

Exceptions:

1. Existing Group R-3 occupancies converted to Group R-3.1 occupancies and not housing bedridden clients, not housing non-ambulatory clients above the first floor, and not housing clients above the second floor.
2. Existing Group R-3 occupancies converted to Group R-3.1 occupancies housing only one bedridden client and complying with Section 435.8.3.3 of the California Building Code.
3. Pursuant to Health and Safety Code, Section 13113, occupancies housing ambulatory children only, none of whom are mentally ill children or children with intellectual disabilities, and the buildings or portions thereof in which such children are housed are not more than two stories in height, and building or portions thereof housing such children have an automatic fire alarm system activated by approved smoke detectors.
4. Pursuant to Health and Safety Code, Section 13143.6, occupancies licensed for protective social care which house ambulatory clients only, none of whom is a child (under the age of 18 years), or who is elderly (65 years of age or over).

When not used in accordance with Section 504.2 or 506.3 of the California Building Code, an automatic sprinkler system installed in accordance with Section 903.3.1.2 shall be allowed in Group R-2.1 occupancies.

An automatic sprinkler system designed in accordance with Section 903.3.1.3 shall not be utilized in Group R-2.1 or R-4 occupancies.

Section 903.3.5.3 Hydraulically calculated systems is hereby added to read as follows:

903.3.5.3 Hydraulically calculated systems. The design of hydraulically calculated fire sprinkler systems shall not exceed 90% of the water supply capacity

Exception: When static pressure exceeds 100 psi, and required by the Fire Code Official, the fire sprinkler system shall not exceed water supply capacity specified by Table 903.3.5.3

TABLE 903.3.5.3
Hydraulically Calculated Systems

15.08.090 Chapter 11 Construction Requirements for Existing Buildings – amendments.

15.08.090 Chapter 25 Fruit and Crop Ripening – deleted

Chapter 25 Fruit and Crop Ripening is deleted in its entirety.

15.08.100 Chapter 26 Fumigation and Insecticidal Fogging – deleted

Chapter 26 Fumigation and Insecticidal Fogging is deleted in its entirety.

15.08.110 Chapter 28 Lumber Yards and Agro-Industrial, Solid Biomass and Woodworking Facilities – amendments.

Chapter 28 Lumber Yards and Agro-Industrial, Solid Biomass and Woodworking Facilities is adopted in its entirety with the following amendments:

Section 2801.2 Permit is hereby revised to read as follows:

2801.2 Permit. Permits shall be required as set forth in Section 105.6 and 105.5.31.

Section 2808.2 Storage site is hereby revised to read as follows:

2808.2 Storage site. Storage sites shall be level and on solid ground, elevated soil lifts or other all-weather surfaces. Sites shall be thoroughly cleaned, and approval obtained from the fire code official before transferring products to the site.

Section 2808.3 Size of piles is hereby revised to read as follows:

2808.3 Size of piles. Piles shall not exceed 15 feet in height, 50 feet in width and 100 feet in length.

Exception: The fire code official is authorized to allow the pile size to be increased where a fire protection plan is provided for approval that includes, but is not limited to, the following:

1. Storage yard areas and materials-handling equipment selection, design and arrangement shall be based upon sound fire prevention and protection principles.
2. Factor that lead to spontaneous heating shall be identified in the plan, and control of the various factors shall be identified and implemented, including provisions for monitoring the internal condition of the pile.
3. The plan shall include means for early fire detection and reporting to the public fire department; and facilities needed by the fire department for fire extinguishment including a water supply and fire hydrants.
4. Fire apparatus access roads around the piles and access roads to the top of the piles shall be established, identified and maintained.
5. Regular yard inspections by trained personnel shall be included as part of an effective fire prevention maintenance program.

Additional fire protection called for in the plan shall be provided and shall be installed in accordance with this code. The increase of the pile size shall be based upon the capabilities of the installed fire protection system and features.

Section 2808.4 Pile Separation is hereby revised to read as follows:

2808.4. Pile separation. Piles shall be separated from adjacent piles by a minimum distance of 20 feet. Additionally, piles shall have a minimum separation of 100 feet from combustible vegetation.

Section 2808.7 Pile fire protection is hereby revised to read as follows:

2808.7 Pile fire protection. Automatic sprinkler protection shall be provided in conveyor tunnels and combustible enclosures that pass under a pile. Combustible conveyor systems and enclosed conveyor systems shall be equipped with an approved automatic sprinkler system. Oscillating sprinklers with a sufficient projectile reach are required to maintain a 40% to 60% moisture content and wet down burning/smoldering areas.

Section 2808.9 Material-handling equipment is hereby revised to read as follows:

2808.9 Material-handling equipment. All material-handling equipment operated by an internal combustion engine shall be provided and maintained with an approved spark arrester. Approved material-handling equipment shall be available

for moving wood chips, hogged material, wood fines and raw product during fire-fighting operations.

Section 2808.11 Temperature control is hereby added as follows:

2808.11 Temperature control. The temperature shall be monitored and maintained as specified in Sections 2808.11.1 and 2808.11.2.

Section 2808.11.1 Pile temperature control is hereby added as follows:

2808.11.1 Pile temperature control. Piles shall be rotated when internal temperature readings are in excess of 165 degrees Fahrenheit.

Section 2808.11.2 New material temperature control is hereby added as follows:

2808.11.2 New material temperature control. New loads delivered to the facility shall be inspected and tested at the facility entry prior to taking delivery. Material with temperature exceeding 165 degrees Fahrenheit shall not be accepted on the site. New loads shall comply with the requirements of this chapter and be monitored to verify that the temperature remains stable.

Section 2808.12 Water availability is hereby added as follows:

2808.12 Water Availability. Facilities with over 2500 cubic feet shall provide a water supply. The minimum fire flow shall be no less than 500 GPM @ 20 psi for a minimum of 1 hour duration for pile heights up to 6 feet and 2 hour duration for pile heights over 6 feet. If there is no water purveyor, an alternate water supply with storage tank(s) shall be provided for fire suppression. The water supply tank(s) shall provide a minimum capacity of 2500 gallons per pile (maximum 30,000 gallons) for piles not exceeding 6 feet in height and 5000 gallons per pile (maximum 60,000) for piles exceeding 6 feet in height. Water tank(s) shall not be used for any other purpose unless the required fire flow is left in reserve within the tank at all times. An approved method shall be provided to maintain the required amount of water within the tank(s).

Section 2808.13 Tipping area is hereby added as follows:

2808.13 Tipping areas shall comply with the following:

1. Tipping areas shall not exceed a maximum area of 50 feet by 50 feet.
2. Material within a tipping area shall not exceed 5 feet in height at any time.
3. Tipping areas shall be separated from all piles by a 20 foot wide fire access lane.
4. A fire hydrant or approved fire water supply outlet shall be located within 150 feet of all points along the perimeter of the tipping area.
5. All material within a tipping area shall be processed within 5 days of receipt.

Section 2808.14 Emergency Contact is hereby added as follows:

2808.14 Emergency Contact. The contact information of a responsible person or persons shall be provided to the Fire Department and shall be posted at the entrance to the facility for responding units. The responsible party should be available to respond to the business in emergency situation.

Section 2808.15 Maximum Grid of Piles and Rows is hereby added as follows:

2808.15 Maximum Grid of Piles and Rows. Rows of Piles shall not exceed 500 feet by 500 feet. Grids shall be separated by a minimum 50 foot clear space used for no other purpose.

Section 2808.16 Push-out / Clear area is hereby added as follows:

2808.16 Push-out / Clear area. Piles exceeding 20 cubic yards shall be provided with push-out areas. Push-out areas shall be maintained clear at all times to allow for the largest pile to be spread out to a depth of 2 feet in height. Push-out areas shall be located within 250 feet of all edges of any pile and shall be located a minimum of 20 feet from any building.

15.08.120 Chapter 49 Requirements for Wildland-Urban Interface Fire Areas – amendments.

Chapter 49 Requirements for Wildland-Urban Interface Fire Areas is adopted in its entirety with the following amendments:

Section 4903.3 Fuel Modification Plans is hereby added as follows:

4903.3 Fuel Modification Plans. Fuel modification plans shall be reviewed and approved by OCFA for all new buildings to be built or installed in a wildfire risk area. Plans shall meet the criteria set forth in OCFA Guideline C-05 "Vegetation Management Guideline – Technical Design for New Construction Fuel Modification Plans and Maintenance Program.

15.08.130 Chapter 50 Hazardous Materials – General Provisions – amendments.

Chapter 50 Hazardous Materials – General Provisions is adopted in its entirety with the following amendments.

Section 5001.5.2 Hazardous Materials Inventory Statement (HMIS) is hereby revised to read as follows:

5001.5.2 Hazardous Materials Inventory Statement (HMIS). Where required by the fire code official, an application for a permit shall include, the Orange County

Fire Authority's Chemical Classification Guideline, which shall be completed and approved prior to approval of plans, and/or the storage, use or handling of chemicals on the premises.

Section 5003.1.1.1 Extremely Hazardous Substances is hereby added as follows:

5003.1.1.1 Extremely Hazardous Substances. No person shall use or store any amount of extremely hazardous substances (EHS) in excess of the disclosable amounts (see Health and Safety Code Section 25500 et al) in a residential zoned or any residentially developed property.

15.08.140 Chapter 56 Explosives and Fireworks – amendments.

Chapter 56 Explosives and Fireworks is adopted in its entirety with the following amendments:

Section 5608.2 Firing is hereby added as follows:

5608.2 Firing. All fireworks display, regardless of mortar, device, or shell size, shall be electrically fired.

Section 5608.3 Application for Permit is hereby added as follows:

Section 5608.3 Application for Permit. A diagram of the grounds on which the display is to be held showing the point at which the fireworks are to be discharged, the fallout area based on 100 feet per inch of shell size, the location of all buildings, roads, and other means of transportation, the lines behind which the audience will be restrained, the location of all nearby trees, telegraph or telephone lines, or other overhead obstructions shall be provided to OCFA.

15.08.150 Chapter 57 Flammable and Combustible Liquids – amendments.

Chapter 57 Flammable and Combustible Liquids. Adopt Chapter 57, with the exception of Section 5707, in its entirety and with the following amendment:

Section 5701.1.1 On-Demand Mobile fueling is added as follows:

Section 5701.1.1 Mobile fueling. On-demand mobile fueling of Class I, II, and III liquids into the fuel tanks of vehicles is prohibited.

15.08.160 Chapter 58 Flammable Gases and Flammable Cryogenic Fluids – amendments.

Chapter 58 Flammable Gases and Flammable Cryogenic Fluids. Adopt Chapter 58, with the exception of Section 5809, in its entirety and with the following amendment:

Section 5801.1 Scope is revised as follows:

Section 5801.1 Scope. The storage and use of flammable gases and flammable cryogenic fluids shall be in accordance with this chapter, NFPA 2 and NFPA 55. Compressed gases shall also comply with Chapter 53 and cryogenic fluids shall also comply with Chapter 55. Flammable cryogenic fluids shall comply with Section 5806. Hydrogen motor fuel-dispensing stations and repair garages and their associated above-ground hydrogen storage systems shall also be designed, constructed and maintained in accordance with Chapter 23. Mobile fueling of gaseous and liquid hydrogen, compressed natural gas (CNG), and liquefied natural gas (LNG) into the fuel tanks of vehicles is prohibited.

Exceptions:

1. Gases used as refrigerants in refrigeration systems (see Section 608).
2. Liquefied petroleum gases and natural gases regulated by Chapter 61.
3. Fuel-gas systems and appliances regulated under the California Mechanical Code and the California Plumbing Code other than gaseous hydrogen systems and appliances.
4. Pyrophoric gases in accordance with Chapter 64.

15.08.170 Chapter 80 Referenced Standards – amendments.

NFPA 13, 2022 Edition, Standard for the Installation of Sprinkler Systems is hereby amended as follows:

Section 16.12.3.3 is hereby revised to read as follows:

16.12.3.3 Fire department connections (FDC) shall be of an approved type. The location shall be approved and be no more than 150 feet from a public hydrant. The FDC may be located within 150 feet of a private fire hydrant when approved by the fire code official. The size of piping and the number of 2½" inlets shall be approved by the fire code official. If acceptable to the water authority, it may be installed on the backflow assembly. Fire department inlet connections shall be painted OSHA safety red or as approved. When the fire sprinkler density design requires more than 500 gpm (including inside hose stream demand), or a standpipe system is included, four 2½" inlets shall be provided.

Section 9.4.3.1 is hereby revised to read as follows:

9.4.3.1 When fire sprinkler systems are installed in shell buildings of undetermined use (Spec Buildings) other than warehouses (S occupancies), fire sprinklers of the quick-response type shall be used. Use is considered undetermined if a specific

tenant/occupant is not identified at the time the fire sprinkler plan is submitted. Sprinklers in light hazard occupancies shall be one of the following:

1. Quick-response type as defined in 3.6.4.8
2. Residential sprinklers in accordance with the requirements of 8.4.5
3. Quick response CMSA sprinklers
4. ESFR sprinklers
5. Standard-response sprinklers used for modifications or additions to existing light hazard systems equipped with standard-response sprinklers
6. Standard-response sprinklers used where individual standard-response sprinklers are replaced in existing light hazard systems

Section 9.2.1.7 is hereby revised as follows:

9.2.1.7 Concealed spaces filled with noncombustible insulation shall not require sprinkler protection when approved by the fire code official.

NFPA 13D 2022 Edition, Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes is hereby amended as follows:

Section 7.1.2 is hereby revised to read as follows:

7.1.2 The sprinkler system piping shall not have separate control valves installed unless supervised by a central station, proprietary, or remote station alarm service.

NFPA 14, 2019 Edition, Installation of Standpipe and Hose Systems is hereby amended as follows:

Section 7.3.1.1 is hereby deleted in its entirety.

NFPA 24, 2019 Edition, Standard for the Installation of Private Fire Service Mains and Their Appurtenances is hereby amended as follows:

Section 6.2.8.1 is hereby added as follows:

6.2.8.1 All indicating valves controlling fire suppression water supplies shall be painted OSHA red.

Exceptions:

1. Brass or bronze valves on sprinkler risers mounted to the exterior of the building may be left unpainted.
2. Where OS&Y valves on the detector check assembly are the only control valves, at least one OS&Y valve shall be painted red.

Section 6.2.9 is hereby revised to read as follows:

All connections to private fire service mains for fire protection systems shall be arranged in accordance with one of the following so that they can be isolated:

- (1) A post indicator valve installed not less than 40 ft (12 m) from the building
 - (a) For buildings less than 40 ft (12 m) in height, a post indicator valve shall be permitted to be installed closer than 40 ft (12 m) but at least as far from the building as the height of the wall facing the post indicator valve.
- (2) A wall post indicator valve
- (3) An indicating valve in a pit, installed in accordance with Section 6.4
- (4) A backflow preventer with at least one indicating valve not less than 40 ft (12 m) from the building
 - (a) For buildings less than 40 ft (12 m) in height, a backflow preventer with at least one indicating valve shall be permitted to be installed closer than 40 ft (12 m) but at least as far from the building as the height of the wall facing the backflow preventer.
- (5) Control valves installed in a fire-rated room accessible from the exterior
- (6) Control valves in a fire-rated stair enclosure accessible from the exterior

Section 10.1.5 is hereby added as follows:

10.1.5 All ferrous pipe and joints shall be polyethylene encased per AWWA C150, Method A, B, or C. All fittings shall be protected with a loose 8-mil polyethylene tube or sheet. The ends of the tube or sheet shall extend past the joint by a minimum of 12 inches and be sealed with 2 inch wide tape approved for underground use. Galvanizing does not meet the requirements of this section.

Exception: 304 or 316 Stainless Steel pipe and fittings

Section 10.4.1.1 is hereby revised to read as follows:

10.4.1.1 All bolted joint accessories shall be cleaned and thoroughly coated with asphalt or other corrosion-retarding material after installation.

Exception: Bolted joint accessories made from 304 or 316 stainless steel.

Section 10.4.1.1.1 is hereby added as follows:

10.4.1.1.1 All bolts used in pipe-joint assembly shall be 316 stainless steel.

Section 10.4.3.2 is hereby added as follows:

10.4.3.2 Where fire service mains enter the building adjacent to the foundation, the pipe may run under a building to a maximum of 24 inches, as measured from the interior face of the exterior wall to the center of the vertical pipe. The pipe under the building or building foundation shall be 304 or 316 stainless steel and shall not contain mechanical joints or it shall comply with 10.4.3.2.1 through 10.4.3.2.4.

15.08.180 Appendix A Board of Appeals – deleted.

Appendix A Board of Appeals is hereby deleted in its entirety.

15.08.190 Appendix B Fire-Flow Requirements for Buildings – adopted.

Appendix B Fire-Flow Requirements for Buildings is hereby adopted with amendments outlined in OCFA Guideline B-09.

15.04.200 Appendix BB Fire-Flow Requirements for Buildings – adopted.

Appendix BB Fire-Flow Requirements for Buildings is hereby adopted.

15.08.210 Appendix C Fire Hydrant Locations and Distribution – adopted.

Appendix C Fire Hydrant Locations and Distribution is hereby adopted.

15.08.220 Appendix CC Fire Hydrant Locations and Distribution -- adopted.

Appendix CC Fire Hydrant Locations and Distribution is hereby adopted.

15.08.230 Appendix D Fire Apparatus Access Roads – deleted.

Appendix D Fire Apparatus Access Roads is hereby deleted in its entirety.

15.08.240 Appendix E Hazard Categories – deleted.

Appendix E Hazard Categories is hereby deleted in its entirety.

15.08.250 Appendix F Hazard Ranking – deleted.

Appendix F Hazard Ranking is hereby deleted in its entirety.

15.08.260 Appendix G Cryogenic Fluids – Weight and Volume Equivalents – deleted.

Appendix G Cryogenic Fluids – Weight and Volume Equivalents is hereby deleted in its entirety.

15.08.270 Appendix H Hazardous Materials Management Plans (HMMP) and Hazardous Materials Inventory Statement (HMIS) Instructions – adopted.

Appendix H Hazardous Materials Management (HMMS) Plans and Hazardous Materials Inventory Statements (HMIS) Instructions is hereby adopted.

15.08.280 Appendix I Fire Protection Systems – Noncompliant Conditions – deleted.

Appendix I Fire Protection Systems – Noncompliant Conditions is hereby deleted in its entirety.

15.08.290 Appendix J Building Information Sign – deleted.

Appendix J Building Information Sign is hereby deleted in its entirety.

15.08.300 Appendix K Construction Requirements for Existing Ambulatory Care Facilities – deleted.

Appendix K Construction Requirements for Existing Ambulatory Care Facilities is hereby deleted in its entirety.

15.08.310 Appendix L Requirements for Fire Fighter Air Replenishment Systems – deleted.

Appendix L Requirements for Fire Fighter Air Replenishment Systems is hereby deleted in its entirety.

15.08.320 Appendix M High Rise Buildings – Retroactive Automatic Sprinkler Requirement – deleted.

Appendix M High Rise Buildings – Retroactive Automatic Sprinkler Requirements is hereby deleted in its entirety.

18.08.330 Appendix N Indoor Trade Shows and Exhibitions – deleted.

Appendix N Indoor Trade Shows and Exhibitions is hereby deleted in its entirety.

15.08.340 Appendix O Temporary Haunted Houses, Ghost Walks and Similar Amusement Uses – deleted.

Appendix O Temporary Haunted Houses, Ghost Walks and Similar Amusement Uses is hereby deleted in its entirety.

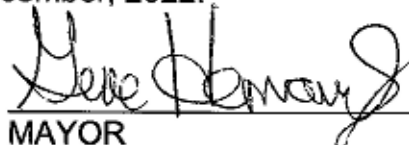

Section 3. Ordinance No. 2016-1029 is hereby repealed in its entirety.

Section 4. CEQA. The City Council hereby finds and determines that it can be seen with certainty that there is no possibility that this ordinance may have a significant adverse effect on the environment, since it adopts updated building and safety standards, which the City had previously adopted in substantial form. Thus, the adoption of this ordinance is exempt from the requirements of the California Environmental Quality Act ("CEQA") pursuant to Section 15061(b)(3) of the CEQA Guidelines. Staff is directed to file a Notice of Exemption with the Orange County Clerk's Office within five (5) working days of the approval of this ordinance.

Section 5. Severability. If any section, subsection, sentence, clause, phrase, or portion of this Ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance. The City Council hereby declares that it would have adopted this Ordinance, and each section, subsection, subdivision, sentence, clause, phrase or portion thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses, phrases or portions might subsequently be declared invalid or unconstitutional.

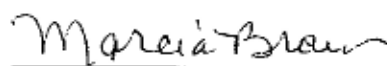

Section 6. Effective Date. This ordinance shall take effect on January 1, 2023. The City Clerk shall certify to the adoption of this ordinance and shall cause this ordinance or a summary thereof to be published in the manner required by law.

PASSED, APPROVED AND ADOPTED at a regular meeting of the City Council of the City of Yorba Linda on this 6th day of December, 2022.

MAYOR
CITY OF YORBA LINDA

ATTEST:

MARCIA BROWN, CITY CLERK
CITY OF YORBA LINDA

APPROVED AS TO FORM:
RUTAN & TUCKER LLP

CITY ATTORNEY

STATE OF CALIFORNIA)
) **ss.**
COUNTY OF ORANGE)

I, **MARCIA BROWN**, City Clerk of the City of Yorba Linda, California, **DO HEREBY CERTIFY** that the foregoing Ordinance was adopted at a regular meeting of the City Council of the City of Yorba Linda held on this 6th day of December, 2022 and was carried by the following roll call vote:

AYES: COUNCILMEMBERS: Campbell, Haney, Hernandez, Lim, Rodriguez
NOES: COUNCILMEMBERS: None
ABSENT: COUNCILMEMBERS: None

MARCIA BROWN, CITY CLERK
CITY OF YORBA LINDA

ORDINANCE NO. 2022-1094

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF YORBA LINDA AMENDING CHAPTER 15.04 OF THE YORBA LINDA MUNICIPAL CODE AND ADOPTING BY REFERENCE THE CALIFORNIA BUILDING CODE VOLUMES 1 AND 2, 2022 EDITION, WHICH INCORPORATES AND AMENDS THE INTERNATIONAL BUILDING CODE, 2021 EDITION, WITH CERTAIN APPENDICES AND AMENDMENTS, THE CALIFORNIA HISTORICAL BUILDING CODE, 2022 EDITION, THE CALIFORNIA EXISTING BUILDING CODE, 2021 EDITION, AND REPEALING ORDINANCE NO. 2019-1063.

WHEREAS, California Government Code Section 50022.1 *et seq.* authorizes the City to adopt by reference the California Building Standards Code (California Code of Regulations, Title 24) adopting certain uniform codes, including the California Building Code Volumes 1 and 2, 2022 Edition (which incorporates and amends the International Building Code, 2021 Edition), with certain appendices and amendments, the California Historical Building, 2022 Edition, the California Existing Building Code, 2022 Edition; and

WHEREAS, California Health and Safety Code Sections 17958 *et seq.* and 18941.5 authorizes cities to adopt the California Building Standards Code with modifications determined to be reasonably necessary because of local climatic, geological or topographical conditions; and

WHEREAS, the City of Yorba Linda desires to adopt the California Building Code, as adopted by the State of California Building Standards Commission in Title 24 of the California Code of Regulations (the "Building Code"), with certain appendices and amendments to assure the Building Code is tailored to the particular safety needs of the City of Yorba Linda as required by its unique climatic, geological and topographical conditions; and

WHEREAS, the City Council held a public hearing on December 6, 2022 at which time all interested persons had the opportunity to appear and be heard on the matter of adopting the California Building Code, 2022 Edition, as amended herein; and

WHEREAS, the City published notice of the aforementioned public hearing pursuant to California Government Code Section 6066 on November 24, 2022 and December 1, 2022; and

WHEREAS, any and all other legal prerequisites relating to the adoption of this Ordinance have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF YORBA LINDA DOES HEREBY ORDAIN AS FOLLOWS:

Section 1. Findings. To the extent that the following changes and modifications to the California Building Code, 2022 Edition, are deemed more restrictive than the standards contained therein, thus requiring that findings be made pertaining to local conditions justifying such modifications, the City Council adopted Resolution No. 2022-5828 that found and determined that the following changes and modifications are reasonably necessary due to local conditions.

Section 2. Chapter 15.04 of the Yorba Linda Municipal Code is hereby amended to read as follows:

“CHAPTER 15.04

BUILDING CODE

Sections:

- 15.04.010 Documents adopted.**
- 15.04.020 Chapter 1, Division II, Scope and Administration – amendments.**
- 15.04.030 Chapter 2 Definitions – amendments.**
- 15.04.040 Chapter 7A Materials and Construction Methods for Exterior Wildfire Exposure – amendments.**
- 15.04.050 Chapter 9 Fire Protection Systems – amendments.**
- 15.04.060 Chapter 15 Roof Assemblies and Rooftop Structures - amendments**
- 15.04.070 Section 3109 Swimming Pool Enclosures and Safety Devices – amendments.**
- 15.04.080 Chapter 35 Referenced Standards – amendments.**
- 15.04.090 Appendix A Employee Qualifications – deleted.**
- 15.04.100 Appendix B Board of Appeals- adopted.**
- 15.04.110 Appendix C Group U – Agricultural Buildings – adopted.**
- 15.04.120 Appendix D Fire Districts – deleted.**
- 15.04.130 Appendix E Reserved – deleted.**
- 15.04.140 Appendix F Rodent proofing – deleted.**
- 15.04.150 Appendix G Flood-Resistant Construction – deleted.**
- 15.04.160 Appendix H Signs – deleted.**
- 15.04.170 Appendix I Patio Covers – adopted.**
- 15.04.180 Appendix J Grading – deleted.**
- 15.04.190 Appendix K Group R-3 and Group R-3.1 Occupancies Protected by the Facilities of the Central Valley Flood Protection Plan – deleted.**
- 15.04.200 Appendix L Earthquake Recording Instrumentation – deleted.**
- 15.04.210 Appendix M Tsunami-Generated Flood Hazard – deleted.**
- 15.04.220 Appendix N Replicable Buildings – deleted**
- 15.04.230 Appendix O Performance – Based Application – deleted “new”**
- 15.04.240 Appendix P Emergency Housing – deleted**

15.04.010. Building Code Adopted.

There is hereby adopted by reference, as the Building Code of the City, the California Building Code, 2022 Edition, with certain appendices and amendments, which incorporates and amends the International Building Code, 2021 Edition, with certain appendices and amendments, published by the International Code Council, the California Historical Building Code, 2022 Edition and the California Existing Building code, 2022 Edition, one certified copy of which is on file in the office of the City Clerk for public inspection and is adopted with the same force and effect as though set out herein in full. The California Building Code, 2022 Edition, as adopted herein, is amended as set forth in Sections 15.40.020 through 15.04.230

15.04.020. Chapter 1, Division II, Scope and Administration – amendments.

Section 101.4.1 Gas is hereby amended to read as follows:

101.4.1 Gas. The provisions of the California Plumbing Code shall apply to the installation of gas piping from the point of delivery, gas appliances and related accessories as covered in this code. Where the term "International Fuel Gas Code" is used in this code, it shall be interpreted to mean the California Plumbing Code. These requirements apply to gas piping systems extending from the point of delivery to the inlet connections of appliances and the installation and operation of residential and commercial gas appliances and related accessories.

Section 101.4.2 Mechanical is hereby amended to read as follows:

101.4.2 Mechanical. The provisions of the California Mechanical Code shall apply to the installation, alterations, repairs and replacement of mechanical systems, including equipment, appliances, fixtures, fittings and/or appurtenances, including ventilating, heating, cooling, air conditioning and refrigeration systems, incinerators and other energy-related systems. Where the term "International Mechanical Code" is used in this code, it shall be interpreted to mean the California Mechanical Code.

Section 101.4.3 Plumbing is hereby amended to read as follows:

101.4.3 Plumbing. The provisions of the California Plumbing Code shall apply to the installation, alteration, repair and replacement of plumbing systems, including equipment, appliances, fixtures, fittings and appurtenances, and where connected to a water or sewage system. The provisions of the California Plumbing Code shall also apply to all private sewage disposal systems. Where the terms "International Plumbing Code" or "International Private Sewage Disposal Code" are used in this code, it shall be interpreted to mean the California Plumbing Code.

Section 101.4.4 Property maintenance is hereby amended to read as follows:

101.4.4 Property Maintenance. The provisions of the Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition, Uniform Housing Code, 1997 Edition, and Chapter 18.40, Enforcement, of the YLMC shall apply to existing structures and premises; equipment and facilities; light, ventilation, space heating, sanitation, life and fire safety hazards; responsibilities of owners, operators and occupants; and occupancy of existing premises and structures. Where the term "International Property Maintenance Code" is used in this code, it shall be interpreted to mean the Uniform Code for the Abatement of Dangerous Buildings, Uniform Housing Code and Chapter 18.40 of the YLMC.

Section 101.4.5 Fire prevention is hereby amended to read as follows:

101.4.5 Fire Prevention. The provisions of the California Fire Code shall apply to matters affecting or relating to structures, processes and premises from the hazard of fire and explosion arising from storage, handling or use of structures, materials or devices; from conditions hazardous to life, property or public welfare in the occupancy of structures or premises; and from the construction, extension, repair, alteration or removal of fire suppression, automatic sprinkler systems and alarm systems or fire hazards in the structure or on the premises from the occupancy or operation. Where the term "International Fire Code" is used in this code, it shall be interpreted to mean the California Fire Code.

Sections 105.1.1 and 105.1.2 are hereby deleted.

Section 105.2 Work exempt from permits is hereby amended by modifying subsections under the heading of "Building" to read as follows:

2. Masonry or concrete fences not over 3 feet (1829 mm) in height measured from the lowest adjacent finish grade.
4. Retaining walls which are not over 4 feet in height measured from the bottom of the footing to the top of the wall unless supporting a surcharge, supporting a sloped backfill with a slope greater than 2:1 or impounding flammable Class I, II, or III-A liquids.
9. Prefabricated swimming pools that are less than 18" deep, do not exceed 5,000 gallons and are installed entirely above ground.
14. Wrought Iron, wood, vinyl or chain link fences not over six (6) feet high measured from the lowest adjacent finish grade, unless a wood, vinyl or chain link fence is a full or partial pool enclosure. Such wood, vinyl or chain link fences shall conform to the pool enclosure requirements of Section 3119B of this code.

Section 105.3.1 Action on application is hereby amended by adding the additional paragraphs to read as follows:

When plans or other data are required to be submitted by section 105.1, a plan review fee shall be paid at the time of submitting plans and specifications for review. The amount of the plan review fee shall be as established by resolution adopted by the City Council.

When submittal documents for plan review are incomplete or modified so as to require additional plan review, an additional plan review fee shall be charged as established by resolution adopted by the City Council.

Section 105.3.2 Time limitation of applications is hereby amended to read as follows:

105.3.2 Time limitation of applications. An application for which no permit is issued within 180 days following the date of application shall automatically expire, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the Building Official. The Building Official may extend the time for action by the applicant for a period not exceeding 180 days on written request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. An application may be extended one or more times by the building official for additional periods not exceeding 180 days each. An application shall not be extended if this code or any other pertinent laws or ordinances have been amended subsequent to the date of application.

An application for a permit may only be extended if a written request for an extension is received prior to the expiration of the permit application and a nonrefundable application fee of \$73.00 is paid. The application for an extension shall state the reason for the extension and identify conditions beyond the control of the applicant which justify the extension. The application shall be reviewed by the Building Official and a decision to grant an extension or not shall be based upon the merits of the written request for the extension. Payment of the \$73.00 application fee shall not automatically grant an extension. Permit application extensions shall not be granted after the expiration of the original permit application and payment of plan review fees. Full plan review fees as set forth in the fee resolution adopted by the City Council shall be paid should the permit application expire.

Section 105.5 Expiration is hereby amended to read as follows:

A permit may only be extended, with no additional permit fees charged, if a written request for an extension is received prior to the expiration of the permit and a nonrefundable application fee of \$73.00 is paid. The application for an extension shall state the reason for the extension and identify conditions beyond the control of the applicant which justify the extension. The application shall be reviewed by the Building Official and a decision to grant an extension or not shall be based upon the merits of the written request for the extension. No additional permit fees, other than the application fee of \$73.00, shall be charged. Payment of the \$73.00 application fee shall not automatically grant an extension. Permits which have become invalid shall pay a renewal fee of 50% of the original permit fee when the permit has been expired

for up to one (1) year. When a permit has been expired for a period in excess of one (1) year, the renewal fee shall be 100% of the original permit fee.

Section 107.2.2 Fire protection system shop drawings is hereby amended by amending the first sentence to read as follows:

107.2.2 Fire protection system shop drawings. Shop drawings for the fire protection system(s) shall be submitted to the Orange County Fire Authority for review to indicate conformance to the adopted codes and the construction documents and shall be approved prior to the framing inspection. Shop drawing shall contain all information as required by the referenced installation standards in Chapter 9.

Section 107.2.5 Exterior balconies and elevated walking surfaces is hereby amended to read as follows:

107.2.5 Exterior balconies and elevated walking surfaces. Where balconies or other elevated walking surfaces are exposed to water from direct or blowing rain, or irrigation and the structural framing is protected by an impervious moisture barrier, the construction documents shall include details for all elements of the impervious moisture barrier system. The construction documents shall include the manufactures installation instructions, products listing name, approval number of the product and the approving agency.

Section 107.2.6 Site plan is hereby amended to read as follows:

107.2.6 Site plan. The construction documents submitted with the application for permit shall be accompanied by a site plan showing the location and dimensions of all new construction, the location and dimensions of all existing construction, all property lines shown and labeled, dimensions between all new construction and all property lines, dimensions between all existing construction and all property lines, dimensions between all new and existing construction, locations of all slopes with the top of any slope or the bottom of any slope specifically plotted and indicated, the structural setback line from top of slope specifically plotted as required by Chapter 18, the overall vertical height of all slope shown, dimensions from the top of any slope to all new proposed construction, show a dimensioned location of any active or abandon oil wells per the Geologic Energy Management Division (CalGem) online Well Finder, indicate if the property is in a methane gas area as designated by OCFA and the Geologic Energy Management Division (CalGem), show a dimensioned location of any active or abandon septic tanks and seepage pits and any other site related information. The Building Official is authorized to waive or modify the requirement for a site plan when the application for permit is for an alteration or repair or when otherwise warranted.

Section 108.1 General is hereby amended by changing the number of days in the second sentence from "180 days" to "30 days".

Section 109.2 Schedule of permit fees is hereby amended to read as follows:

109.2 Schedule of permit fees. For each permit required by this Article, there shall be charged and paid to the Building Department, a fee as established by resolution adopted by the City Council, and at the rate provided for each classification shown therein.

Section 109.4 Work commencing before permit issuance is hereby amended to read as follows:

109.4 Work commencing before permit issuance.

109.4.1 Investigation. Whenever any work for which a permit is required by this code has been commenced without first obtaining said permit, a special investigation shall be made before a permit may be issued for such work. A special investigation shall be made either by the building official, or a building inspector. Prior to any special inspection, all concealed structural and non-structural items shall be exposed so either the building official, or the inspector can conduct an accurate assessment of the non-permitted construction. The items to be exposed shall include, but not limited to, foundation, framing, electrical, plumbing and mechanical.

109.4.2 Fee. An investigation fee, in addition to the permit, shall be collected whether or not a permit is then or subsequently issued. The investigation fee shall be equal to the amount of the permit fee that would be required by this code if a permit were to be issued. The payment of such investigation fee shall not exempt any person from compliance with all other provisions of this code or from any penalty prescribed by law.

109.4.3 Emergency Work. The investigation fee shall not apply to emergency work when it shall be proved to the satisfaction of the Administrative Authority that such work was urgently necessary and that it was not practical to obtain a permit therefor before commencement of the work. In all such cases, a permit must be obtained as soon as it is practical to do so, and if there be an unreasonable delay in obtaining such permit, an investigation fee as herein provided shall be charged.

Section 109.6 Refunds is hereby amended to read as follows:

109.6 Refunds. The building official may authorize refunding of a fee paid hereunder which was erroneously paid or collected.

The building official may authorize refunding of not more than 80 percent of the permit fee paid when no work has been done under a permit issued in accordance with this code.

The building official may authorize refunding of not more than 80 percent of the plan review fee paid when an application for a permit for which a plan review fee has been paid is withdrawn or canceled before any examination time has been expended.

The building official shall not authorize the refunding of any fee paid except upon written application filed by the original permittee not later than 180 days after the date of fee payment.

Section 110.7 Reinspections is hereby added to read as follows:

110.7 Reinspections: The Authority Having Jurisdiction shall have the authority to assess a reinspection fee for each inspection or reinspection when such portion of work for which inspection is requested is not complete or when required corrections have not been made. Reinspection fees may also be assessed when the approved plans are not readily available to the inspector, or failure to provide access on the date for which inspection is requested or for deviating from plans requiring the approval of the Building Official or requesting a reinspection of the same item three or more times.

This provision is not to be interpreted as requiring reinspection fees the first time a job is rejected for failure to comply with the requirements of this code, but as controlling the practice of calling for inspections before the job is ready for inspection or reinspection.

To obtain reinspection, the applicant shall file an application therefor in writing upon a form furnished for that purpose and pay the reinspection fee established by resolution adopted by the City Council.

In instances where reinspection fees have been assessed, no additional inspection of the work will be performed until the required fees have been paid.

Section 110.8 Extra inspections is hereby added to read as follows:

110.8 Extra inspections: When extra inspections are necessary by reason of deficient or defective work, or otherwise through fault or error on the part of the holder of the permit or on the part of his employees, only one such extra inspection shall be made under the regular fees as herein prescribed; and the holder of the permit shall be entirely responsible for each and every subsequent extra visit or inspection. A reinspection fee shall be paid for every subsequent extra visit or inspection.

Section 111.5 Posting is hereby added to read as follows:

111.5 Posting. The certificate of occupancy shall be posted in a conspicuous place on the premises and shall not be removed except by the building official.

Section 112.3 Authority to disconnect service utilities is hereby amended by modifying the first sentence to read as follows;

112.3 Authority to disconnect service utilities. The building official or the building official's authorized representative shall have the authority to authorize disconnection of utility service to the building, structure or system regulated by this code and the

codes referenced in case of emergency where necessary to eliminate an immediate hazard to life and property.

Section 115.1 Authority is hereby amended to read as follows:

115.1 Authority. Whenever the building official finds any work regulated by this code, or other pertinent laws or ordinances implemented through the enforcement of this code, is being performed in a manner either contrary to their provisions or in a dangerous or unsafe manor, the building official is authorized to issue a stop work order.”

15.04.030. Chapter 2 Definitions – amendments.

Sections 202 Definitions is hereby amended by adding definition to read as follows:

202 General Definitions

SPARK ARRESTER. A listed device constructed of noncombustible material specifically for the purpose of meeting one of the following conditions:

1. Removing and retaining carbon and other flammable particles/debris from the exhaust flow of an internal combustion engine in accordance with California Vehicle Code Section 38366.
2. Fireplaces that burn solid fuel in accordance with California Building Code Chapter 28.

15.04.040. Chapter 7A Materials and Construction Methods for Exterior Wildfire Exposure – amendments.

Section 701A.3 Application is hereby revised to read as follows:

701A.3 Application. New buildings located in any Fire Hazard Severity Zone or any Wildland-Urban Interface Fire Area designated by the enforcing agency constructed after the application date, and additions to and remodel of buildings constructed before 2012 located in areas currently designated as such, shall comply with the provisions of this chapter. The provisions shall also apply to additions, remodels, and accessory structures located within 100 feet of a fuel modification zone, vegetation management area, or similar area containing hazardous combustible vegetation, regardless of whether the property is currently located in a designated Fire Hazard Severity Zone or Wildland-Urban Interface Fire Area, when materials and/or construction methods for exterior wildfire exposure were previously required at the property by the Building or Fire Code Official.

Exceptions:

1. Buildings of an accessory character classified as a Group U occupancy and not exceeding 120 square feet in floor area, when located at least 50 feet from the applicable building.
2. Buildings of an accessory character classified as a Group U occupancy of any size located least 50 feet from an applicable building.
3. Buildings classified as a Group U Agricultural Building, as defined in Section 202 of this code (see also Appendix C – Group U Agricultural Buildings), when located at least 50 feet from an applicable building.

Section 710A.3.3 is hereby revised to read as follows:

710A.3.3 Detached accessory structures within 50 feet of an applicable building shall comply with the requirements of this section.

Section 710A.4 Requirements is hereby added to read as follows:

710A.4 Requirements. Roofs of any accessory structures shall be constructed of non-combustible or ignition-resistant materials.

15.04.050. Chapter 9 Fire Protection Systems – amendments.

Section 903.2 Where required is hereby amended to read as follows:

903.2 Where required. Approved automatic sprinkler systems in buildings and structures shall be provided when one of the following conditions exists:

1. **New buildings:** Notwithstanding any applicable provisions of Sections 903.2.1 through 903.2.21, an automatic fire-extinguishing system shall also be installed in all occupancies when the total building area exceeds 5,000 square feet as defined in Section 202, regardless of fire areas or allowable area, or is more than two stories in height.

Exception: Subject to approval by the Fire Code Official, open parking garages in accordance with Section 406.5 of the California Building Code.

2. **Existing Buildings:** Notwithstanding any applicable provisions of this code, an automatic sprinkler system shall be provided in an existing building when an addition occurs and one of the following conditions exists:
 - a. When an addition is 33% or more of the existing building area, and the resulting building area exceeds 5000 square feet.
 - b. When an addition exceeds 2000 square feet and the resulting building area exceeds 5000 square feet.
 - c. An additional story is added above the second floor regardless of fire areas or allowable area.

Exception: Additions to Group R-3 occupancies shall comply with Section 903.2.8 (2).

Section 903.2.8 Group R is hereby amended to read as follows:

903.2.8 Group R. An automatic sprinkler system installed in accordance with Section 903.3 shall be provided throughout all buildings with a Group R fire area as follows:

1. **New Buildings:** An automatic sprinkler system shall be installed throughout all new buildings.
2. **Existing R-3 Buildings:** An automatic sprinkler system shall be provided installed throughout when one of the following conditions exists:
 1. When the floor area of alterations within any two-year period exceeds 50 percent of the gross area of the existing structure and the building gross floor area exceeds 4,800 square feet; or
 2. When an existing Group R-3 Occupancy is being substantially renovated, and where the scope of the renovation is such that the Building Code Official determines that the complexity of installing a sprinkler system would be similar as in a new building.
1. Existing Group R-3 occupancies converted to Group R-3.1 occupancies and not housing bedridden clients, not housing non-ambulatory clients above the first floor, and not housing clients above the second floor.
2. Existing Group R-3 occupancies converted to Group R-3.1 occupancies housing only one bedridden client and complying with Section 435.8.3.3 of the California Building Code.
3. Pursuant to Health and Safety Code, Section 13113, occupancies housing ambulatory children only, none of whom are mentally ill children or children with intellectual disabilities, and the buildings or portions thereof in which such children are housed are not more than two stories in height, and building or portions thereof housing such children have an automatic fire alarm system activated by approved smoke detectors.
4. Pursuant to Health and Safety Code, Section 13143.6, occupancies licensed for protective social care which house ambulatory clients only, none of whom is a child (under the age of 18 years), or who is elderly (65 years of age or over).

When not used in accordance with Section 504.2 or 506.3 of the California Building Code, an automatic sprinkler system installed in accordance with Section 903.3.1.2 shall be allowed in Group R-2.1 occupancies.

An automatic sprinkler system designed in accordance with Section 903.3.1.3 shall not be utilized in Group R-2.1 or R-4 occupancies.

Section 903.3.5.3 Hydraulically calculated systems is hereby added as follows:

903.3.5.3 Hydraulically calculated systems. The design of hydraulically calculated fire sprinkler systems shall not exceed 90% of the water supply capacity.

Exception: When static pressure exceeds 100 psi, and when required by the fire code official, the fire sprinkler system shall not exceed the water supply capacity specified by Table 903.3.5.3.

**TABLE 903.3.5.3
 Hydraulically Calculated Systems**

15.04.060. Chapter 15 Roof Assemblies and Rooftop Structures – amendments.

Table 1505.1 Minimum roof covering classifications types of construction is hereby amended to read as follows:

**TABLE 1505.1^a
 MINIMUM ROOF COVERING CLASSIFICATIONS
 TYPES OF CONSTRUCTION**

I A	I B	II A	II B	III B	III B	IV	V A	V B
A	A	A	A	A	A	A	A	A

For SI: 1 foot = 304.8 mm, 1 square foot = 0.0929 m².

a. Unless otherwise required in accordance with chapter 7A.

Section 1512.2 Roof replacement is hereby amended to read as follows:

1512.2 Recovering versus replacement. New roof coverings shall not be installed without first removing all existing layers of roof coverings and assembly materials down to the roof deck.

All newly installed roof coverings in a Fire Hazard Severity Zone, Wildland-Urban Interface Fire Area, or Fuel Modification Zone shall require new roof vents throughout and if applicable, all underside eave and cornice vents per Section 706A. Retrofit vents shall be reviewed and approved prior to installation.

Where the roofing material profile has an "air-space" under the roof covering, the underlayment shall comply with Section 705A.

15.04.070 Section 3109 Swimming Pool, SPAS AND HOT TUBS – amendments. Revised to coincide with Ord. 2020-1083.

Section 3109.2 California swimming pool act are hereby amended by modifying the following subsections:

Subsection 115922(a)(1) is hereby amended to include the follow sentence at the end of the subsection, "The requirements of this subsection, 115922(a)(1) are required to be one of the drowning prevention safety features."

Subsection 115922(a)(2) is hereby deleted.

Subsection 115923 is hereby amended to read as follows:

115923 An enclosure/barrier¹ is a mandatory requirement per subsection 115922(a)(1) and shall have all the following characteristics:

- (a) **Barrier height and clearances.** The top of the barrier shall be at least sixty (60) inches above grade measured on both sides of the barrier. The 60-inch barrier height shall be maintained for a distance of three (3) feet measured perpendicular from the face of the barrier and on both sides of the barrier. No natural or artificial grade, rock outcropping or artificial structure or construction may be placed within the three-foot horizontal distance, which reduces the effective barrier height to less than 60 inches. The maximum vertical clearance between grade and the bottom of the barrier shall be two (2) inches.

Return walls and all other obstructions, indentations, including but not limited to artificial structure(s), construction characteristics, wrought iron/vinyl fencing, raised planters, retaining walls or architectural features which could be considered a step shall maintain a 45-inch horizontal clear area between the horizontal surface(s) measures 3'-0" perpendicular outward from the face of the subject wall.

1 The Property Owner is responsible for verifying and avoiding conflicts with any existing easements, Yorba Linda Water District easements, dedicated easements, parks, public trails, neighboring properties, and any other similar areas.

(b) **Gates.** Any access door or gates through the enclosure shall be a minimum of 60 inches in height, open away from the swimming pool and be self-closing with a self-latching device. The release mechanism shall be located on the pool side of the door or gate and shall be located a minimum of three inches below the top of the 60-inch gate. The access door or gate and the barrier shall have no openings greater than one half (1/2) inch within eighteen (18) inches of the release mechanism. Gates shall not be wider than 48 inches.

Access doors wider than 48 inches may be used with the following conditions. Access doors or gates with a leaf wider than forty-eight (48) inches need not be self-closing or self-latching. Single leaf doors or gates shall have an integral, permanent, keyed locking device or a pad lock installed. Double leaf doors or gates shall have an integral; permanent keyed locking device or a pad lock installed in one leaf with the second leaf provided with a dead bolt at the bottom of the door or gate. The dead bolt shall be a minimum of one half inch (1/2) inch in diameter and engage into a permanently installed receiver of steel or concrete a minimum of two (2) full inches. The dead bolt shall have an integral, permanent, keyed locking device.

RV Gates are permitted, however a separate mandatory barrier compliant with Section 115923 shall be installed with or without a compliant access gate behind the RV gate.

(c) **Gaps.** Gaps or voids, if any, shall not allow passage of a sphere equal to or greater than four (4) inches in diameter.

(d) **Chain link Fencing.** Chain link (consistent with Yorba Linda Zoning Code, Section 18.10.130.F) may be used, provided the openings are not greater than 1-3/4 inches measured horizontally.

(e) **Widely and Closely spaced horizontal, vertical or diagonal members.** When the barrier is composed of horizontal, vertical or diagonal members, the distance between the tops of the horizontal members shall not be less than forty-five (45) inches. Where there are decorative features in the fence, spacing within the features shall not exceed 1-3/4 inches in any dimension.

(f) **Outside surface.** The outside surface shall be free of protrusions, cavities or other physical characteristics that would serve as handholds or footholds that could enable a child below the age of five to climb over. Protrusions, cavities and physical characteristics shall be a maximum of 1/2" or less.

- (g) **Solid Barrier Surfaces.** Solid Barriers which do not have openings shall not contain indentations or protrusions except normal construction tolerances and tooled joints ½" or less.

115923.1 Dwelling wall as a barrier. Where a wall of a dwelling serves as part of the barrier, one of the following shall apply:

1. Doors with direct access to the pool through that wall shall be equipped with an alarm that produces an audible warning when the door and/or its screen, if present, are opened. The alarm shall be *listed* and labeled in accordance with UL 2017. In dwellings not required to be *Accessible units, Type A units* or *Type B units*, the deactivation switch shall be located 54 inches (1372 mm) or more above the threshold of the door. In dwellings required to be *Accessible units, Type A units* or *Type B units*, the deactivation switch shall be located not higher than 54 inches (4 feet 6 inches) and not less than 48 inches (4 feet) above the threshold of the door.
2. The pool shall be equipped with a power safety cover that complies with ASTM F1346.
3. Any man door opening from a garage to the inside of the pool barrier enclosure shall be equipped with one of the following devices:
 - i. The locking and latching device shall be located a minimum of 54 inches above ground level. The door shall be self closing and self latching.
 - ii. The door shall be equipped with an audible warning as required in Item (1) above, with the exception that the alarm shall be located in both the garage and in the habitable area of the dwelling.
 - iii. The door shall be self closing, self latching and be openable only with a key or combination type door latch.

115923.2 Indoor Swimming Pools. Walls surrounding indoor swimming pools shall not be required to comply with Subsection 115923.1.

115923.3 Exempt facilities. The requirements of this article shall not apply to the following:

Any pool within the jurisdiction of any political subdivision that adopts and ordinance for swimming pool safety that includes requirements that are at least as stringent as this division.

Section 3109.3 Public swimming pools is hereby added to read as follows:

3109.3 Public swimming pools. Public swimming pools shall be completely enclosed by a fence at least five (5) feet in height or other acceptable barrier. Fences and acceptable barriers shall conform to the requirements of Section 3119B

15.04.080. Chapter 35 Referenced Standards – amendments.

NFPA 13, 2022 Edition, Standard for the Installation of Sprinkler Systems is hereby amended as follows:

Section 6.7.3 is hereby revised to read as follows:

6.7.3 Fire department connections (FDC) shall be of an approved type. The location shall be approved and be no more than 150 feet from a public hydrant. The FDC may be located within 150 feet of a private fire hydrant when approved by the fire code official. The size of piping and the number of 2½" inlets shall be approved by the fire code official. If acceptable to the water authority, it may be installed on the backflow assembly. Fire department inlet connections shall be painted OSHA safety red or as approved. When the fire sprinkler density design requires more than 500 gpm (including inside hose stream demand), or a standpipe system is included, four 2½" inlets shall be provided.

Section 8.3.3.1 is hereby revised to read as follows:

8.3.3.1 When fire sprinkler systems are installed in shell buildings of undetermined use (Spec Buildings) other than warehouses (S occupancies), fire sprinklers of the quick-response type shall be used. Use is considered undetermined if a specific tenant/occupant is not identified at the time the fire sprinkler plan is submitted. Sprinklers in light hazard occupancies shall be one of the following:

1. Quick-response type as defined in 3.6.4.8
2. Residential sprinklers in accordance with the requirements of 8.4.5
3. Quick response CMSA sprinklers
4. ESFR sprinklers
5. Standard-response sprinklers used for modifications or additions to existing light hazard systems equipped with standard-response sprinklers
6. Standard-response sprinklers used where individual standard-response sprinklers are replaced in existing light hazard systems

Section 8.15.1.2.7 is hereby revised as follows:

8.15.1.2.7 Concealed spaces filled with noncombustible insulation shall not require sprinkler protection when approved by the fire code official.

NFPA 13D 2022 Edition, Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes is hereby amended as follows:

Section 7.1.2 is hereby revised to read as follows:

7.1.2 The sprinkler system piping shall not have separate control valves installed unless supervised by a central station, proprietary, or remote station alarm service.

NFPA 14, 2019 Edition, Installation of Standpipe and Hose Systems is hereby amended as follows:

Section 7.3.1.1 is hereby deleted in its entirety.

NFPA 24, 2019 Edition, Standard for the Installation of Private Fire Service Mains and Their Appurtenances is hereby amended as follows:

Section 6.2.8.1 is hereby added as follows:

6.2.8.1 All indicating valves controlling fire suppression water supplies shall be painted OSHA red.

Exceptions:

1. Brass or bronze valves on sprinkler risers mounted to the exterior of the building may be left unpainted.
2. Where OS&Y valves on the detector check assembly are the only control valves, at least one OS&Y valve shall be painted red.

Section 6.2.9 is hereby revised to read as follows:

All connections to private fire service mains for fire protection systems shall be arranged in accordance with one of the following so that they can be isolated:

- (1) A post indicator valve installed not less than 40 ft (12 m) from the building
 - (a) For buildings less than 40 ft (12 m) in height, a post indicator valve shall be permitted to be installed closer than 40 ft (12 m) but at least as far from the building as the height of the wall facing the post indicator valve.
- (2) A wall post indicator valve
- (3) An indicating valve in a pit, installed in accordance with Section 6.4
- (4) A backflow preventer with at least one indicating valve not less than 40 ft (12 m) from the building
 - (a) For buildings less than 40 ft (12 m) in height, a backflow preventer with at least one indicating valve shall be permitted to be installed closer than 40 ft (12 m) but at least as far from the building as the height of the wall facing the backflow preventer.

- (5) Control valves installed in a fire-rated room accessible from the exterior.
- (6) Control valves in a fire-rated stair enclosure accessible from the exterior.

Section 10.1.5 is hereby added as follows:

10.1.5 All ferrous pipe and joints shall be polyethylene encased per AWWA C150, Method A, B, or C. All fittings shall be protected with a loose 8-mil polyethylene tube or sheet. The ends of the tube or sheet shall extend past the joint by a minimum of 12 inches and be sealed with 2 inch wide tape approved for underground use. Galvanizing does not meet the requirements of this section.

Exception: 304 or 316 Stainless Steel pipe and fittings

Section 10.4.1.1 is hereby revised to read as follows:

10.4.1.1 All bolted joint accessories shall be cleaned and thoroughly coated with asphalt or other corrosion-retarding material after installation.

Exception: Bolted joint accessories made from 304 or 316 stainless steel.

Section 10.4.1.1.1 is hereby added as follows:

10.4.1.1.1 All bolts used in pipe-joint assembly shall be 316 stainless steel.

Section 10.4.3.2 is hereby revised to read as follows:

10.4.3.2 Where fire service mains enter the building adjacent to the foundation, the pipe may run under a building to a maximum of 24 inches, as measured from the interior face of the exterior wall to the center of the vertical pipe. The pipe under the building or building foundation shall be 304 or 316 stainless steel and shall not contain mechanical joints or it shall comply with 10.4.3.2.1 through 10.4.3.2.4.

15.04 090 Appendix A Employee Qualifications – deleted.

Appendix A Employee Qualifications is hereby deleted in its entirety.

15.04.100 Appendix B Board of Appeals – adopted.

Appendix B Board of Appeals is hereby adopted.

15.04.110 Appendix C Group U – Agricultural Buildings – adopted.

Appendix C Group U – Agricultural Buildings is hereby adopted.

15.04.120 Appendix D Fire Districts – deleted.

Appendix D Fire Districts is hereby deleted in its entirety.

15.04.130 Appendix E Reserved – deleted.

Appendix E Reserved is hereby deleted in its entirety.

15.04.140 Appendix F Rodent proofing – deleted.

Appendix F Rodent proofing is hereby deleted in its entirety.

15.04.150 Appendix G Floor-Resistant Construction – deleted

Appendix G Flood-Resistant Construction is hereby deleted in its entirety.

15.04.160 Appendix H Signs – deleted.

Appendix H Signs is hereby deleted in its entirety.

15.04.170 Appendix I Patio Covers – adopted.

Appendix I Patio Covers is hereby adopted.

15.04 180 Appendix J Grading – deleted

Appendix J Grading is hereby deleted in its entirety.

15.04.190 Appendix K Group R-3 and Group R-3.1 Occupancies Protected by the Facilities of the Central Valley Flood Protection Plan – deleted.

Appendix K Group R-3 and Group R-3.1 Occupancies Protected by the Facilities of the Central Valley Flood Protection Plan is hereby deleted in its entirety.

15.04.200 Appendix L Earthquake Recording Instrumentation – deleted.

Appendix L Earthquake Recording Instrumentation

Appendix L Earthquake Recording Instrumentation is hereby deleted in its entirety.

15.04.210 Appendix M Tsunami-Generated Flood Hazard – deleted

Appendix M Tsunami-Generated Flood Hazard is hereby deleted in its entirety.

15.04.220 Appendix N Replicable Buildings – deleted

Appendix N Replicable Buildings is hereby deleted in its entirety.

15.04.230 Appendix O Performance – Based Application – deleted

Appendix O Performance – Based Application is hereby deleted in its entirety.

15.04.240 Appendix P Emergency Housing – Deleted

Appendix P Emergency Housing is hereby deleted in its entirety.

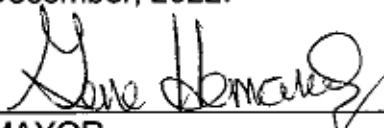

Section 3. Ordinance No. 2019-1063 is hereby repealed in its entirety.

Section 4. CEQA. The City Council hereby finds and determines that it can be seen with certainty that there is no possibility that this ordinance may have a significant adverse effect on the environment, since it adopts updated building and safety standards, which the City had previously adopted in substantial form. Thus, the adoption of this ordinance is exempt from the requirements of the California Environmental Quality Act ("CEQA") pursuant to Section 15061(b)(3) of the CEQA Guidelines. Staff is directed to file a Notice of Exemption with the Orange County Clerk's Office within five (5) working days of the approval of this ordinance.

Section 5. Severability. If any section, subsection, sentence, clause, phase, or portion of this Ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance. The City Council hereby declares that it would have adopted this Ordinance, and each section, subsection, subdivision, sentence, clause, phrase or portion thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses, phrases or portions might subsequently be declared invalid or unconstitutional.

Section 6. Effective Date. This ordinance shall take effect on January 1, 2023. The City Clerk shall certify to the adoption of this ordinance and shall cause this ordinance or a summary thereof to be published in the manner required by law.

PASSED, APPROVED AND ADOPTED at a regular meeting of the City Council of the City of Yorba Linda on this 6th day of December, 2022.

MAYOR
CITY OF YORBA LINDA

ATTEST:

MARCIA BROWN, CITY CLERK
