MESSAGE FROM THE CHIEF

It is my pleasure to present the Orange County Fire Authority's 1999 Annual Report. OCFA's continued focus on all-around quality of service and sound fiscal management has once again resulted in a value-added year for the people we so proudly serve.

Our first two-year budget was implemented in 1999; it more efficiently addresses our overall financial planning efforts. This work has resulted in a stronger foundation from which the OCFA moves to the future. The next important step is the implementation of the strategic planning process. This process, currently underway, was approved by the Board of Directors in January and will more clearly merge the needs of our diverse communities and our organization with the available resources.

After a rigorous effort spanning many years, the so-called "equity" issue was resolved in December, 1999, when all twenty OCFA partner entities approved revisions to the amended Joint Powers Agreement. The collective effort of our Board of Directors, City Managers, and OCFA members was instrumental in resolving this very important public policy issue.

During the year, our Comprehensive Annual Financial Report (CAFR) was singled out for the prestigious Certificate of Achievement for Excellence in Financial Reporting—the highest possible recognition. Our OCFA was also recognized by the Municipal Treasurers Association for meeting the Association's standards for investment policies.

In 1999, 13 of our members retired, 64 were promoted, and 42 people were hired. The opening of Station 20 at the MCAS El Toro site, the addition a career-staffed Paramedic Assessment Engine at Station 10, and the conversion of Engine 19 to a Paramedic Engine were important service delivery enhancements and provided additional career opportunities to OCFA members.

The issues associated with our aging workforce will continue to challenge our OCFA for the foreseeable future. This wealth of knowledge and the years of experience cannot be easily replaced, underscoring the importance of investing in ourselves. Engaging our members in activities that lead to success continues to be a high priority. In 1999, this effort dramatically increased with the addition of several new project teams, all of which are focused on improving the services provided by OCFA, both for our members, and for the people living or working in the neighborhoods and communities we so vigilantly serve.

The members of OCFA continue to give back to our communities through an array of charitable efforts, such as supporting the United Way, the Spark of Love Toy Drive, the Salvation Army, the Race for the Cure, and the Trauma Intervention Program.

Lastly, in spite of our providing over 800 public safety education programs, conducting more than 25,000 fire safety inspections, teaching 160 of our neighbors CPR, and providing extensive community educational outreach, 4 people died, 43 people suffered fire-related injuries, and

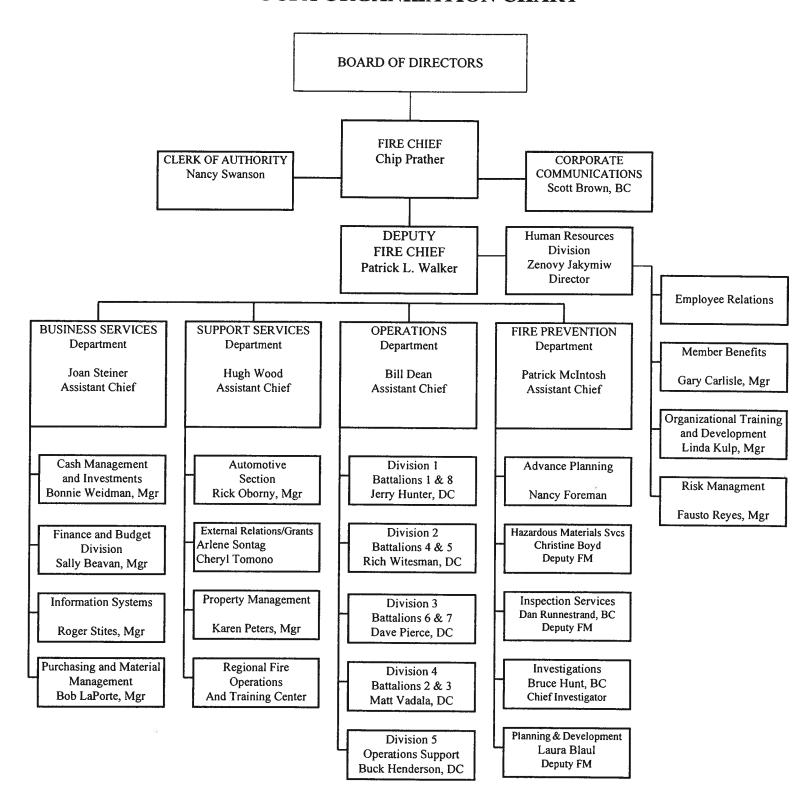

property valued at over \$13 million was destroyed by fire last year. Our field forces quickly responded to the needs of our communities 66,395 times (152,876 unit responses) during the period—on average, one unit response every 3.4 minutes of every day. Through it all, the people who required our emergency response rated those services as 97 percent perfect—a remarkable accomplishment.

While I am proud of all that we do at OCFA, I am most pleased with the way our members do their very best to help other people through their "bad" days and do so in ways that extend well beyond emergency response. I am privileged to serve as the Fire Chief of such a fine group of people, people who do great things every day for perfect strangers. As we collectively look forward to OCFA's dynamic future in the 21st Century, know that we, the PEOPLE of OCFA, stand ready to continue our high level of customer-centered service and that you can count on us to be there every time.

Chip Prather Fire Chief

1999 OCFA Major Incidents

JANUARY 14—A fire in the 27800 block of Cordero Lane in Mission Viejo destroys a two-story home and causes more than \$300,000 in damage. A total of 30 firefighters respond to the incident and control the fire in 40 minutes.

FEBRUARY 2—Sparks from a blowtorch ignite a fire at a construction site on Lakeside Drive in Buena Park, causing more than \$500,000 in damage.

MARCH 24—More than 100 employees are evacuated at a metal finishing company in the 8400 block on Standustrial Way in Stanton due to a toxic chemical spill. The spill was caused when a 30-gallon tank filled with sodium hydrosulfite began so smolder. No injuries are reported.

APRIL 11—A fire in the 6100 block of Saddletree Lane in Yorba Linda causes \$350,000 damage to a single-family home. The fire was caused by an ember that escaped from a chimney and landed on a wood-shake roof.

JUNE 30—Two young children are killed and several other people are injured when a car bursts into flames after being hit from behind by other vehicle on Prospect Avenue at Theodora Drive in Tustin.

AUGUST 12—A four-alarm fire at a Cabinet Company on Oak Street in Stanton causes approximately \$220,000 in damage and takes 75 firefighters more than two hours to control.

1999 OCFA Major Incidents

AUGUST 21—A total of 95 firefighters contain a brush fire to 25 acres at Santiago Canyon Road and Silverado Canyon Road.

SEPTEMBER 25—An attic fire at a Chinese Restaurant at 14825 Jeffrey Road in Irvine causes approximately \$500,000 in damage to the structure and \$300,000 to the contents.

OCTOBER 16—A 7.1 earthquake at 2:46 a.m. with an epicenter in the Mojave Desert causes minimal damage in Orange County. Some homes are without electricity for periods, but no major structural damage is reported.

DECEMBER 26—Damage is estimated at \$1 million as a spa and massage center in Laguna Hills is destroyed in the early morning hours. It takes 75 firefighters about one hour to put the fire out. An arsonist is caught setting the fire on video.

DECEMBER 27—A wildland fire burns 38 acres in Trabuco Canyon. A total of 19 engines, more than 100 firefighters, two helicopters and two fixed wing aircraft combine to fight the blaze.

CUSTOMER SATISFACTION SURVEY

A Customer Satisfaction Survey program was implemented in November 1998, to determine the degree of customer satisfaction with services rendered by the members of the Operations Department during emergencies. The data compiled from these surveys is useful in illustrating superior interpersonal and professional skills, as well as identifying any potential problem areas.

How the program works

Data related to structure fires and non-fatality emergency medical responses is extracted from the Orange County Fire Incident Reporting System (OCFIRS). The data extracted includes incident number, date of incident, type of incident, involved property owner/patient name and mailing address, and responding units. Using this information, survey forms are mailed to property owners/patients on a weekly basis. When forms are returned completed, the responses are input to the Survey Database. Telephone calls are made to those who included negative comments or questions on their returned forms.

Questions included on Survey Form

Recipients of the form are asked to rate for services based on the following:

- 1. Promptness of the 911 system.
- 2. Courtesy of the 911 operator.
- 3. Promptness of the fire department response.
- 4. Courtesy and helpfulness of the fire department personnel.
- 5. Fire department personnel took time to explain their actions.
- 6. Professional appearance of the fire department personnel.
- 7. Overall satisfaction with the fire department service.

About the Summary Statistics

Data obtained through this process is summarized in a monthly report to the Chief. Copies are also provided to executive management, division chiefs, battalion chiefs, and station captains. The report is arrayed by Battalion and Unit, and includes the following data: number of survey responses received; the simple numeric average score for each of the seven questions; the average score for questions 1 and 2, which pertain to the 911 communications system; the average scores for questions 3 through 7, which pertain to services provided in the field; an overall average for all questions, and any comments included on the survey form.

Survey Results

Providing quality care is the goal of the Fire Authority, our customer's opinions are very valuable to us. The results indicate that our customers are indeed pleased with our service. We have experienced a very high rate of return (over 32%) for forms mailed. We have received an overall satisfaction rating of over 97%!
